CREWS Canadian Rail
Equipment Works
& Services Inc.

Canadian Rail Equipment Works and Services Inc (CREWS) founded in 2012 and continues to grow and deliver service excellence, with a priority focus on safety.

CREWS is a well-respected rail partner that offers industrial switching services, transloading, railcar storage (product security), and other freight rail services.

CREWS continues to grow capacity and service offerings through expansion and innovation answering the call for a fully serviced rail terminal in Eastern Ontario. We take great pride in our knowledge and experience in rail operations and in helping add value for Growth in the region.

& Services Inc.

1-800-265-3868

With Safety as a top Priority, CREWS continues to host emergency preparedness sessions and works closely with the community to ensure proper training comes first.

SAFETY FIRST!

Thank you to ERAC, our customers and employees for participating in this important safety exercise.

We are focused on our ongoing commitment to partnership, open communication, and investment in our community and economy

Strong collaboration with our Class 1 Railway partners and customers on new exciting business opportunities across the continental rail network!

THANK YOU !
