

Leeds and Grenville's energy needs

2023 Leeds Grenville Economic Development Summit

Brian Lennie

Specialist, Economic Development

Natural gas demand growth in Ontario

Over 35 natural gas growth projects underway

100+ large volume distribution opportunities

Assessing 15+ economic development sites

Natural gas and power required to fuel economic growth.

Enbridge is also supporting electricity demand

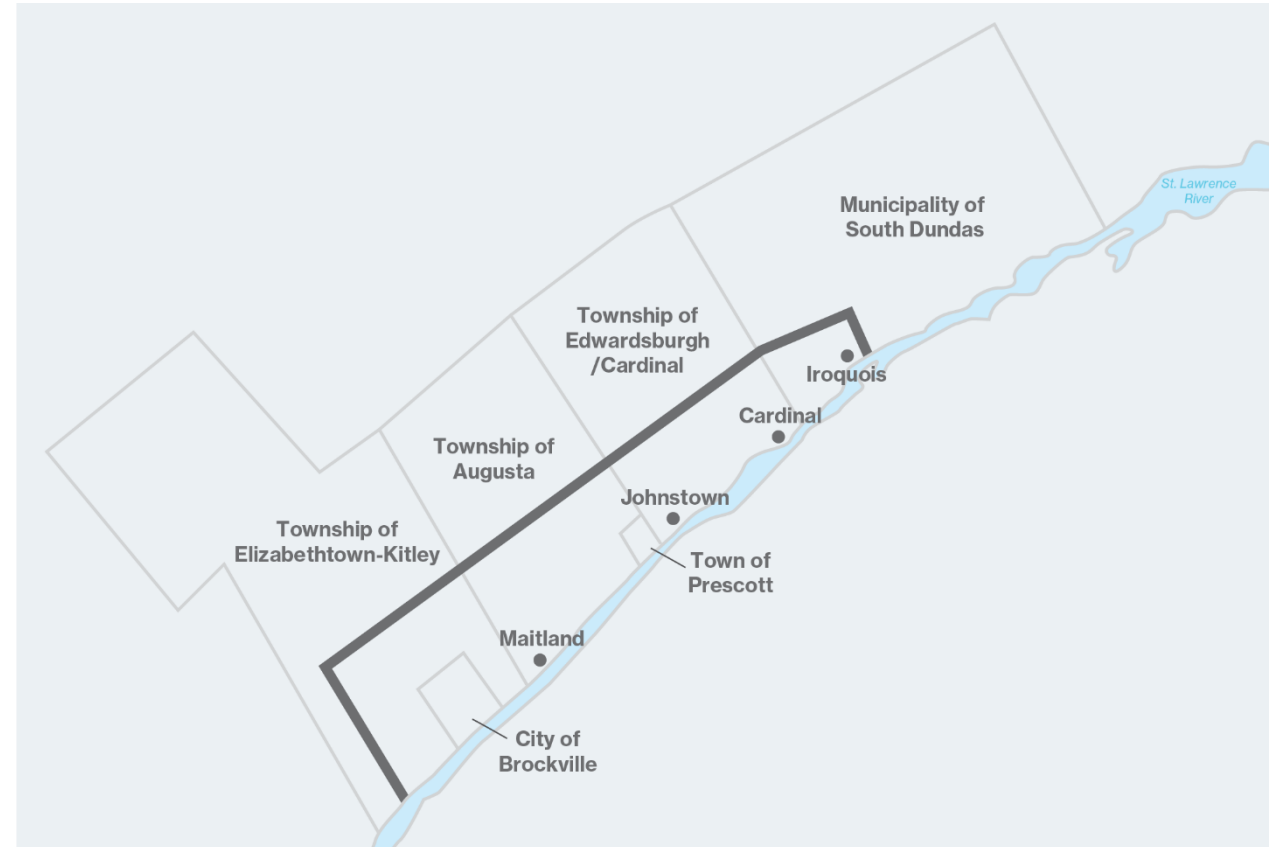

Same technology upgrades (2024/2025)	Awarded (MW)
1. Portlands Energy Centre	50.0
2. Halton Hills Generating Station	31.5
3. Thorold Cogeneration	23.0
4. Goreway Power Station	40.4
5. York Energy Centre	38.0
6. St. Clair Energy Centre	68.5
7. Brighton Beach Generating Station	42.5
Total capacity awarded	294
Expedited long-term RFP (ELT1) (2025/2026)	Awarded (MW)
8. East Windsor Cogeneration	100
9. Greenfield South Power	195
Total capacity awarded	295
Total capacity awarded	589

Over 950 MW of natural gas power expansion yet to be awarded.

Addressing growth in Leeds and Grenville

Brockville to Iroquois EOI and ROS

- Enbridge Gas has heard from some of our largest customers (contract rate) in the Brockville to Iroquois area of their interest in increased natural gas capacity.
- As a result, an Expression of Interest (non-binding) and Reverse Open Season (binding) was launched Nov. 10.
- The EOI and ROS will be open until Jan. 19, 2024.
- Seeks to determine what demand exists, so we can prudently plan facilities for the future.
- EOI and ROS information is available at: enbridgegas.com/en/business-industrial/commercial-industrial/economic-development

Addressing growth in Leeds and Grenville

Provincial natural gas consultation

- Aug. 17: Ontario government launches ‘Consultation on the future of natural gas expansion and home heating affordability.’
- Seeking feedback until Dec. 15 at: ero.ontario.ca/notice/019-7506
- Previous Natural Gas Expansion program phase 2 (in progress): more than 17,000 families and businesses from 59 communities given the choice to switch to natural gas.

Future of Natural Gas Expansion and Home Heating Affordability - Discussion Paper for Consultation

Theme #1: Performance of NGEP to Date	15
Theme #2: Conversion to Natural Gas for Home Heating	15
Theme #3: Natural Gas Expansion and Indigenous Communities	16
Theme #4: Future of Natural Gas Expansion	17

Introduction

Over the past five years, our government has been hard at work making life more affordable for Ontarians and ensuring Ontario is the best place to create jobs and build the industries of the future. A critical part of making Ontario attractive and competitive is ensuring that homes and businesses across our province have access to reliable and affordable energy.

Despite this, thousands of households, businesses and Indigenous communities in rural and northern Ontario pay some of the highest energy bills in the province. The Ministry

Thank you
